

Thet Zaw Latt

SENIOR FLUTTER DEVELOPER | MOBILE ENGINEER

Da Nang, Vietnam | 0942686025 | thetzawlatt46@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Senior Flutter Developer with 5+ years of experience building and shipping production mobile applications for iOS and Android across fintech, marketplaces, real-time systems, streaming, and consumer products. Strong in Flutter/Dart, Firebase, REST API integration, Riverpod/Provider/GetX state management, performance optimization, testing, and end-to-end mobile release. Experienced translating Figma designs into responsive interfaces, integrating backend services, and collaborating with backend, QA, and product teams. Additional hands-on experience with Node.js, MongoDB, Next.js, and Tailwind CSS for supporting full-stack delivery.

CORE EXPERTISE

Mobile: Flutter, Dart, iOS/Android delivery, Firebase, Cloud Firestore, Firebase Authentication, REST APIs

Architecture & State: Riverpod, Provider, GetX, feature-first organization, reusable components, reactive state management

Quality & Performance: Flutter testing, business-logic testing, debugging, performance optimization, centralized error handling

Backend & Web: Node.js, MongoDB, Next.js, Tailwind CSS, SQL

Release & Design: App Store, Google Play, TestFlight, Huawei AppGallery, Figma, Git/GitHub

PROFESSIONAL EXPERIENCE

06/2024 - Present | Senior Flutter Developer (Contract / Freelance)

- Deliver contract-based Flutter applications from UI implementation and Firebase/API integration through debugging, testing, and release preparation.
- Completed the Cheers! Flutter rebuild as a client contract project, including collaborative experience flows, tasks, budgets, shared expenses, and Firebase-backed workflows.
- Provide supporting full-stack delivery with Node.js, MongoDB, Next.js, and Tailwind CSS when projects require backend APIs or admin tooling.

02/2024 - 06/2024 | Senior Flutter Developer - Myanmar Impact Technologies

Project: Rice Seller and Buyer Marketplace

- Spearheaded development of a Flutter marketplace application for Myanmar with a focus on reliable cross-platform performance.
- Maintained fluid UI behavior across Android and iOS and translated high-fidelity Figma designs into reusable Flutter components.
- Led technical communication between backend and QA teams to streamline sprint delivery and resolve integration issues.

06/2023 - 09/2023 | Flutter Developer - eTrade Myanmar

Project: Movie Streaming Application

- Built features for a movie streaming application in an Agile environment and supported weekly sprint delivery.
- Implemented complex Figma-based UI and optimized application loading performance by 20% using structured GetX/Provider state management.
- Managed end-to-end publishing workflows for 5+ commercial applications across the App Store and Google Play.

PROFESSIONAL EXPERIENCE - CONTINUED

03/2022 - 05/2023 | Flutter Developer - Partner Associates Int'l Company Limited

Project: Authenticator App, Office ERP App, Education App

- Contributed to Flutter application development across authentication, enterprise ERP, and education products in a system-integration environment.

11/2019 - 03/2022 | Ionic and Flutter Developer - Myanmar Information Technology

Project: Core Banking, Digital Wallet, Agent Applications

- Developed and maintained secure mobile banking, digital wallet, and agent applications.
- Focused on data encryption and secure API communication for financial-service mobile products.
- Worked in a large-scale project environment with 10+ team members and delivered critical updates across multiple business domains.

SELECTED PROJECTS

Cheers! - Collaborative Event Planning & Shared Finance App | 2026

Completed client contract project rebuilding an existing MVP in Flutter with Firebase and Riverpod. Implemented real-time collaborative workflows, task tracking, budgeting and shared expenses, member permissions, notification routing, and testable business logic. The project includes automated Flutter tests covering tasks, permissions, budget calculations, notifications, and Firebase error handling. [Portfolio](#)

Soccer Score - Real-time Sports Tracking | 10/2024

Built a Flutter real-time results application with four-language support (English, Hindi, Chinese, Vietnamese) and optimized stream-based data updates for low-latency score refresh. [Portfolio](#)

Sport FM Radio App | 09/2024

Developed a lightweight audio streaming application optimized for low-bandwidth environments, including background playback and notification controls. [Portfolio](#)

Portfolio Website | 12/2025

Built a personal portfolio using Next.js and Tailwind CSS to present selected mobile engineering and contract work. [Portfolio](#)

EDUCATION

Monywa Technological University | 12/2012 - 12/2018

Bachelor - Information Technology (BE.IT, B-Tech IT)
