

Thet Zaw Latt

SENIOR FLUTTER DEVELOPER | MOBILE ENGINEER

Da Nang, Vietnam | 0942686025 | thetzawlatt46@gmail.com | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Senior Flutter Developer with 5+ years of experience building and shipping production mobile applications for iOS and Android across fintech, marketplaces, real-time communication, streaming, and enterprise products. Strong in Flutter/Dart, REST API integration, Firebase, reactive state management, performance optimization, and end-to-end mobile release. Experienced translating high-fidelity Figma designs into responsive interfaces and collaborating closely with backend, QA, and product teams. Additional hands-on experience with Node.js, MongoDB, Next.js, and Tailwind CSS for full-stack delivery.

CORE EXPERTISE

Mobile: Flutter, Dart, iOS/Android delivery, REST API integration, Firebase, GetX, Provider

Backend & Web: Node.js, MongoDB, Next.js, Tailwind CSS, SQL, HTML5, CSS

Engineering: OOP, Git/GitHub, Agile delivery, performance optimization, secure API communication

Release & Design: App Store, Google Play, Huawei AppGallery, Figma

Tools: Android Studio, VS Code, Cursor, ChatGPT

PROFESSIONAL EXPERIENCE

06/2024 - Present | Full-Stack Developer (Project-Based) - Freelance

- Deliver project-based Flutter applications together with supporting Node.js/MongoDB backend integrations and Next.js/Tailwind admin panels.
- Own implementation across mobile UI, API integration, debugging, and feature delivery for independent client projects.
- Use Figma-driven development workflows to move from product requirements and designs to working cross-platform features.

02/2024 - 06/2024 | Senior Flutter Developer - Myanmar Impact Technologies

Project: Rice Seller and Buyer Marketplace

- Spearheaded development of a rice seller and buyer marketplace application for Myanmar, with a focus on reliable cross-platform performance.
- Maintained fluid 60fps UI performance across Android and iOS devices and translated high-fidelity Figma designs into reusable Flutter components.
- Led technical communication between backend and QA teams to streamline sprint delivery and resolve integration issues.

10/2023 - 12/2023 | Senior Flutter Developer - Win Corker

Project: Real-time Chat Application

- Developed real-time messaging features with complex state management for a high-scale chat application.
- Implemented near-instant message delivery and synchronization while collaborating with UI/UX, backend, and QA teams.

06/2023 - 09/2023 | Flutter Developer - eTrade Myanmar

Project: Movie Streaming Application

- Built features for a movie streaming application in an Agile environment and supported weekly sprint delivery.
- Implemented complex Figma-based UI/UX and optimized application loading performance by 20% using structured GetX/Provider state management.
- Managed end-to-end publishing workflows for 5+ commercial applications across the App Store and Google Play.

PROFESSIONAL EXPERIENCE - CONTINUED

03/2022 - 05/2023 | Flutter Developer - Partner Associates Int'l Company Limited

Projects: Authenticator App, Office ERP App, Education App

- Contributed to Flutter application development across authenticator, office ERP, and education products in a system-integration environment.

11/2019 - 03/2022 | Ionic and Flutter Developer - Myanmar Information Technology

Projects: Core Banking, Digital Wallet, Agent Applications

- Developed and maintained secure core banking, digital wallet, and agent mobile applications.
- Focused on data encryption and secure API communication for financial-service mobile products.
- Worked in a large-scale project environment with 10+ team members and delivered critical updates across multiple business domains.

SELECTED PROJECTS

Soccer Score - Real-time Sports Tracking | 10/2024

Built a Flutter real-time results application with four-language support (English, Hindi, Chinese, Vietnamese) and optimized stream-based data updates for low-latency score refresh. [GitHub](#)

Sport FM Radio App | 09/2024

Developed a lightweight audio streaming application optimized for low-bandwidth environments, including background playback and notification controls. [GitHub](#)

QuizRush | 11/2025

Delivered a quiz product spanning the mobile application, backend API, and admin panel, demonstrating end-to-end full-stack ownership. [Project](#)

Four in a Row - Sport Style | 08/2024

Built a Flutter game with single-player and two-player modes, including custom game logic and UI behavior. [GitHub](#)

Portfolio Website | 12/2025

Built a personal portfolio using Next.js and Tailwind CSS to present selected mobile and full-stack work. [Portfolio](#)

EDUCATION

Monywa Technological University | 12/2012 - 12/2018

Bachelor - Information Technology (BE.IT, B-Tech IT)
