Thet Zaw Latt

SOFTWARE ENGINEER | FLUTTER & MOBILE DEVELOPMENT

Da Nang, Vietnam | 0942686025 | thetzawlatt46@gmail.com | Portfolio | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Software Engineer with 5+ years of experience designing, building, testing, releasing, and maintaining production mobile applications for iOS and Android. Specializes in Flutter/Dart, with hands-on responsibility for architecture, state and data flow, Firebase and REST API integration, debugging, performance optimization, and store releases. Experienced turning product ideas and Figma designs into polished user experiences, collaborating with backend and QA teams, and delivering supporting web products with Next.js, TypeScript, and Supabase.

CORE EXPERTISE

Mobile Engineering: Flutter, Dart, iOS/Android delivery, responsive mobile UI, Firebase, REST APIs, WebSockets, Platform Channels
Architecture & State: Riverpod, Provider, GetX, feature-first architecture, clean architecture, reusable components
Product & Web: Next.js, TypeScript, Supabase, responsive web, AI workflows, product UX
Quality & Performance: Unit testing, Flutter testing, debugging, performance optimization, error handling
Delivery & Tools: App Store, Google Play, TestFlight, Huawei AppGallery, Figma, Git/GitHub

PROFESSIONAL EXPERIENCE

06/2024 - Present | Senior Flutter Developer - Contract Projects / Freelance

- Deliver contract Flutter applications across architecture, UI implementation, Firebase/API integration, debugging, testing, and release preparation.
- Completed the Cheers! rebuild with Riverpod-managed state and data flow, real-time collaboration, shared finance workflows, and 122 tests for critical business logic.
- Provide supporting product delivery with Node.js, MongoDB, Next.js, and Tailwind CSS when projects require APIs, admin tooling, or web experiences.

02/2024 - 06/2024 | Senior Flutter Developer - Myanmar Impact Technologies

Project: Rice Seller and Buyer Marketplace

- Spearheaded Flutter development with reliable cross-platform behavior across Android and iOS.
- Translated high-fidelity Figma designs into reusable production components and coordinated delivery with backend and QA teams.

06/2023 - 09/2023 | Flutter Developer - eTrade Myanmar

Project: Movie Streaming Application

- Built movie-streaming features and integrated an Android-native video player into Flutter through Platform Channels.
- Delivered complex Figma-based UI and API-driven state using GetX/Provider.
- Optimized loading performance by 20% and supported commercial App Store and Google Play publishing workflows.

PROFESSIONAL EXPERIENCE - CONTINUED

03/2022 - 05/2023 | Flutter Developer - Partner Associates Int'l Company Limited

Project: Authenticator App, Office ERP App, Education App

- Built a Microsoft Authenticator-style mobile app with two-factor authentication and fingerprint-based verification.
- Implemented WebSocket-powered real-time sign-in alerts, allowing users to review and approve authentication requests in the app.
- Delivered production Flutter UI and feature workflows across enterprise ERP and education products.
- Collaborated with stakeholders to ship maintainable, release-ready mobile experiences.

11/2019 - 03/2022 | Ionic and Flutter Developer - Myanmar Information Technology

Project: Core Banking, Digital Wallet, Agent Applications

- Developed and maintained mobile banking, digital wallet, and agent applications.
- Worked with secure API communication and data-handling requirements in a large professional development environment.

SELECTED PROJECTS

Cheers! - Collaborative Event Planning & Shared Finance App | Featured Contract Project

Re-engineered an existing MVP in Flutter with feature-first architecture, Riverpod state and data flow, Firebase services, real-time collaboration, shared finance workflows, and 122 tests covering critical business logic. Portfolio

TripMate - AI-assisted Travel Planning | Featured Product Build

Built a responsive Next.js and Supabase product that creates editable AI-assisted itineraries, checklists, and budget estimates, with maps, weather, public share links, PDF export, and planned Flutter mobile support. Portfolio

Dear You - Burmese Letter & Song-request Experience | Creative Product Platform

Built a mobile-first Next.js and Supabase platform with a three-step letter submission flow, optional song details, Google and magic-link sign-in, owner status tracking, moderation, and public published letters. Portfolio

QuizRush - Gamified Learning Product | Full Product Delivery

Delivered a quiz product spanning a Flutter mobile client, admin panel, and backend API with gamified learning flows. Portfolio

EDUCATION

Monywa Technological University | 12/2012 - 12/2018

Bachelor - Information Technology (BE.IT, B-Tech IT)
